

Wu Tsai Neurosciences Institute

Seminar Series Fall 2019

Thursdays at 12pm, Clark Center Auditorium

- | | | | |
|--------|--|--------------------|---|
| Oct 3 | Timothy Harris
Janelia Research Campus - HHMI
<i>High channel count electrophysiology, hardware data analysis and scaling: Can we record from the “whole brain”?</i>
Host: Nick Melosh | Nov 7 [†] | Sophia Vinogradov
University of Minnesota
<i>Promoting cognitive and neural system recovery in early phases of psychotic illness</i>
Host: Rob Malenka
<small>†Co-sponsor: Psychiatry Grand Rounds, Department of Psychiatry and Behavioral Sciences</small> |
| Oct 10 | Marc Freeman
Oregon Health & Science University
<i>Neuron-glia signaling after nervous system injury</i>
Host: Michelle Monje | Nov 14 | Randy Bruno
Columbia University
<i>The many layers of touch</i>
Host: Lu Chen |
| Oct 17 | Thomas Kash
University of North Carolina at Chapel Hill
<i>Probing the role of the extended amygdala circuits in motivated behavior</i>
Host: Konstantin Kaganovsky (Ding Lab) | Dec 5 | Darcy Peterka
Columbia University
<i>Spatial light modulator based methods for 3D control and imaging in the brain</i>
Host: Jun Ding |
| Oct 24 | Mark Wu
Johns Hopkins University
<i>Circadian regulation of sleep and arousal in flies and mice</i>
Host: Nirao Shah | Dec 12 | Patricia Janak
Johns Hopkins University
<i>Dopamine, striatal circuits and reward learning</i>
Host: John Huguenard |
| Oct 31 | Seth Blackshaw
Johns Hopkins University
<i>Building and rebuilding the retina and hypothalamus, one cell at a time</i>
Host: Sui Wang | | |
