

Wu Tsai Neurosciences Institute

Seminar Series Winter 2020

Thursdays at 12pm, Clark Center Auditorium

- | | | | |
|--------|---|--------|--|
| Jan 9 | Ardem Patapoutian
Scripps Research Institute
<i>Piezo channels in mechanotransduction: Sensory biology to disease</i>
Host: Jin Hyung Lee | Feb 20 | Jason Shepherd
University of Utah
<i>Viral origins of memory</i>
Host: Michelle Drews (Shatz Lab) |
| Jan 16 | Xinzhong Dong
Johns Hopkins University
<i>The role of Mrgprs in itch and pain sensation</i>
Host: Jun Ding | Feb 27 | Yukiko Goda
RIKEN Center for Brain Science
<i>Regulating synaptic strength diversity in hippocampal pyramidal neurons</i>
Host: Lu Chen |
| Jan 23 | Kafui Dzirasa
Duke University
<i>Mapping emotions: Discovering structure in mesoscale electrical brain recordings</i>
Host: Raag Airan | Mar 12 | Richard Mooney
Duke University
<i>From song to synapse</i>
Host: Eddy Albarran (Shatz/Ding Lab) |
| Jan 30 | Vivek Jayaraman
Janelia Research Campus - HHMI
<i>A neural compass that combines flexibility and stability</i>
Host: Tom Clandinin | Mar 19 | Lin Tian
University of California, Davis
<i>Watching the brain in action: creating tools for functional analysis of neural circuitry</i>
Host: Michael Lin |
| Feb 6 | Marlene Cohen
University of Pittsburgh
<i>Linking attentional changes in neuronal responses to perception</i>
Host: Keren Haroush | Mar 26 | Dayu Lin
New York University
<i>Neural mechanisms of aggression</i>
Host: Nirao Shah |
