

Wu Tsai Neurosciences Institute

Seminar Series – Spring 2022

Thursdays, 12 pm PT

Zoom Meeting ID: 997 7252 6575, Passcode: 589274

Apr 14 **Nanthia Suthana**
University of California, Los Angeles
*Intracranial neurophysiological
representations of space and memory
in freely-moving humans*
**Host: Mari Sosa*
*Co-sponsored by Psychiatry Grand Rounds,
Department of Psychiatry and Behavioral Sciences*

Apr 28 **Sama Ahmed**
Princeton Neuroscience Institute
*Movings Songs: Probing multitasking
in Drosophila*
**Host: Ashley Smart*

May 5 **Arif Hamid**
University of Minnesota
*Spatiotemporal dopaminergic mechanisms
for flexible behaviors and agency learning*
**Host: Mari Sosa*

May 12 **Karel Svoboda**
Allen Institute for Brain Science
*Neural circuits and mechanisms
underlying planning and movement*
**Host: Stephen Baccus*
Shooter Lectures take place at 3 pm PT

May 19 **Zayd Khaliq**
NINDS Intramural Research Program
*Inhibitory control of dopaminergic
neurons – dendrites, soma and axons*
**Host: Richard Roth*

May 26 **Catherine Hartley**
New York University
Developing behavioral flexibility
**Host: Akshay Jagadeesh*
*Co-sponsored by Psychiatry Grand Rounds,
Department of Psychiatry and Behavioral Sciences*

**Contact hosts to request to meet with a speaker*
